First of all, I want to mention how Bitcoin quickly succeed in becoming the most expensive crypto currency. I think in future people will be paying with Bitcoin all around the world and the blockchain system will renovate world economy.

Second of all, Mark Zuckerberg in past has announced his biggest and the most ~~am~~ ambitious project called the "Metaverse". In this project Zuckerberg is trying to create a big digital world in virtual reality where everybody can work, study and spend their time on leisure. I hope that in future ~~for~~ enough money was raised for this project to succeed.

Ant  
The last but not the least, I want to mention coronavirus. Since 2019 we haven't found the cure to this virus. I sincerely hope that in future it will be cured.

That's all I have to say. I pray that in future we reach world peace and start colonising other other planets. I hope my kids are living their life to the fullest.

$$A: 2+2+2=6$$

$$B: 2+2+3+1=8 \quad / 22$$

$$C: 1+2+1+2=6$$
