Hello.

I hope my message will get far into the future and you have already forgot about the things I am going to write about so it would be more interesting for you to read.

I think, one thing you must remember is the coronavirus infection that appeared in China in 2019, if I am not mistaken. Probably, your generation has a universal cure for it but we are only starting to perfect our vaccines.

Another event I consider significant is the fact that some historical buildings might be ruined. We should do every thing we can to keep them for future generations. ^{those buildings} ~~they~~ are not just an architecture value, ~~they are also~~ there are also a lot of stories about them. *Sense?*

On the positive note, it is impossible to stay away from the modern cinematography. I hope that the future generation will love the films of my time the same as I do. You can easily find ~~the~~ the list of ~~the~~ the most popular movies. I recommend Russian cinematography as it ~~is~~ is ~~of~~ of high quality and you may like the original plots.

The future generation should like better ~~the~~ than we do now. I really hope that you solved global problems and overcame the difficulties we have. ~~the~~

Wish you well,

Afrodita
