Язык английский Вариант № 2Dear descendants,

My name is Olesya and I would like to present
you the brightest events in people's lives in 2022

Firstly, after the COVID-19 pandemic, it became
necessary in our everyday life to wear personal protective
equipment, namely masks and gloves, everywhere people
walk in medical masks.

Secondly, during the big lockdown in 2020, many
areas of life went online. The number of online courses
has grown, a huge number of online courses has appeared,
and much more.

Thirdly, after COVID-19, each person has greatly
increased attention to his or her health. Now people pay
more attention to skin disinfection, they go to doctors more
often and carefully monitor their diet.

The eruption of COVID-19 has greatly (and in some ways
radically) changed people's lives. Now we can no longer
imagine our life without various online platforms or
without masks that can be found in any pocket of any pocket.

I hope that all diseases are eradicated in ~~your~~ time.
It would be great if online life continues to exist and
people have even more time both for self-education and
for work, as well as for meeting with family and friends.

With best wishes for the future,

Olesya from 2022
