The details In my book, the details described in the text give the readers an impression that this is not just an ordinary grocery shop, but a magnificent art gallery, therefore one wants to stay there longer, not just to buy something and leave, but to examine each detail thoroughly.

The Letter from 2022

Dear descendants,

my name is Mary and I live in 2022. You're really lucky if you have found this time capsule as I'm going to hide it deep in the forest, so no one finds it in the space of at least 100 years. I would really like to tell you about our time.

First of all, we have severe environmental problems. The water is contaminated, the air is polluted, landfills are poisoned with chemical fertilizers, many animal species become extinct because of drastic climate changes. We try to use alternative sources of energy, recycle used materials, ~~some countries ban the use of plastic~~, but that's not enough. Every person has to change their attitude towards the common problem ~~in order to~~ solve it. Moreover, the political situation in the world is very awful. We have wars due to economic reasons, but it's common people who suffer. And the last, but definitely not the least object I would like to tell you about is coronavirus pandemic. Lockdowns have led to ~~the~~ economic crisis, unemployment, problems with travelling, health care and education, many people die everyday... I hope you've managed to overcome it.

I really hope that you don't have these problems. Remember that not only governments can have an impact on common problems. Be kind to each other and put your whole heart in order to save peace.

Best wishes,

Mary
