Greetings to whoever is reading this letter. I hope this finds in good health. This message ~~is~~ was written in the year 2022 and I only have the opportunity to write three things that I consider significant enough to state here.

First of all, I ~~shall~~ remind you that, no matter what, there should be peace in the world. If you are learning history well, you know that we are living in major historical events right now, and I can assure you that this is not a pleasant thing to go through.

Secondly, nowadays science is achieving levels that are so high ~~it's~~ it's hard to believe that I guess, ~~in your times~~ scientists of your times have already made even more great discoveries. At present though, the most rapidly-developing ~~sphere~~ is medicine, which I am happy about. All the illnesses should be cured.

Lastly, I can only hope that you've found ¹⁵⁰ a way of coping with ecological problems as at my time we have plenty of them. However, European countries have already reduced the use of plastic and are now working on the technologies of getting electricity (and energy in general) from sun, wind and nuclear power, because natural resources are coming to an end.

To conclude my letter, I think you can ~~also~~ continue this tradition and make your own time capsule from your times. ~~Stay~~ stay safe.
