86 Hi there from 2022! My name is Nastya and I'm here to deliver the message that has an enormous historical importance. You've probably always wondered what the real past of your planet looked like. If so, you're very lucky as I'm about to tell you what it's like from my personal point of view.

to my mind, our most valuable accomplishments at the moment are cars. They make it very easy to move around the area. What is more, there exist different kinds of cars: the ones that work on gasoline and the ones requiring electricity. The other objects worth mentioning are mobile phones. With their help we can easily exchange information and communicate with friends and family from all over the world. And last but not least, I want to tell you about headphones. Using them everyone can peacefully enjoy any kind of music, books and podcasts whenever and wherever they want. Headphones might not seem very important ^{to you} but I'm sure they make our world way more positive than it was without them.

87 All right everyone, thank you for reading my message from the past. I really hope you all are doing amazing as well! just as amazing as we do and peace and love surround you every second of your lives!
