Dear people in future,

We had a lot of interesting events in our lives, although there are three events that, in my opinion, are the major and the most important ones.

First of all, I think that the creation of UN is the most important event throughout our history. The fact is, that this organisation helps countries to keep peace between each other. Moreover, it has similar organisations and companies, that operate in smaller areas of our society. For example, UNICEF or UNESCO.

Secondly, in my opinion, the establishment of WWF and other organisations that help nature is not less important. The fact is, that we must take care of our nature, because we already did enough damage to it. Therefore, such organisations help people to save our planet and nature.

Lastly, I would like to tell about the creation of Seven World Wonders. In my opinion, the creation of such masterpieces is an important event for humanity, because even after decades they will keep their beauty and attract people.

In conclusion, I would like to say, that every person has his own opinion on the importance of the events. Nevertheless, I hope that in future we would have less negative events, but more positive and fascinating ones.

$$B: 2 + 2 + 2 + 1 = 7$$

$$C: 3 + 2 + 1 + 2 = 8$$
