Hello, future generations. I guess everything is almost entirely different in your times, but I wanted you to know how it was in the past.

Firstly, one of the most ~~is~~ significant objects we have is our mobile phones. People use them every day for everything from calling ~~a~~ friend to doing their jobs. Nowadays, a person can't live without a smartphone. News, money, photos are all in the digital form on people's devices. Personally I can say, that my phone is my life.

Secondly, almost every person in the world has ~~a car. or a motorbike.~~ People drive to work and back home, to a party, to their parents and other relatives etc. Especially cars allow to move fast and get to places in time. Unfortunately, because the amount of people on Earth is gigantic that means that the number of cars is almost the same and that's why traffic is a big problem these days. A person ~~could be stuck for hours and be late,~~ but still to have a meaning of transport is crucial nowadays and definitely makes life easier. dev

Also, another very important thing is masks. After the pandemic that started in 2020, a person can't go anywhere without a mask, because it is not safe. It is not the best thing, but people got used to them and also started customizing masks for themselves. Now it's ~~almost a~~ necessary thing to wear with ~~a~~ one's outfit. dev

I don't know, if these things are still important in your days, but we almost depended on them. They are our lives.
