1	6	2	1	3	7 1.
2	3 1	1	2	2	1
3	2	3	1	4	3
4	1 2	3	3	2	1 2

5	In my opinion, a lot of things make a bad boss, who is hated by his employees. For example, an aggressive behaviour, bad manners, attempts of threatening to fire people, lack of empathy and personal contribution to work. Of course, the main thing is a permanent desire to steal ideas someone's ideas and become responsible for it.

16	F - Switzerland gets most of its energy from nuclear and hydroelectric sources. T - These installations <u>would</u> help households move away from burning wood for cooking. F - The rich are the cause of the carbon dioxide emissions warming the world. T - Should rich nations help poorer countries with the damage caused by climate change? T - Switzerland has signed pacts with eight nations. Japan and Sweden have said they will pursue the same kinds of deals. T - Investing in old technologies such as coal and fossil fuels does not make sense. A more climate-friendly future is ahead.
17	1. Switzerland will pay other countries to cut their gases and use the cuts to reach its agreed-upon goals. For example, it is paying to install efficient lighting and electric stoves in five million households in Ghana. 2. Questions about whether Switzerland's payment is fair are and whether it is good to help poorer countries with the damage caused by climate change are have been discussed at the United Nations climate conference. 3. It is useful for rich countries to give money to poor ones as rich countries don't have to work on its emissions. 4. The 2015 Paris Agreement said countries could cooperate in reducing their greenhouse gas emissions. 5. Rich nations are criticized for failing to pay poorer nations to better adapt to warming temperatures.
18	1. to stop being dependent on 2. be responsible for important things 3. uses gases, which create an ^{greenhouse} effect in the atmosphere and cause high temperatures 4. in poorer conditions, worse or less significant 5. oil or gasoline, that is goes from the ground and ^{is} used for engines
19	1. water 2. pop 3. recommendations homes 4. documents 5. follow
20	It's common knowledge that Switzerland gets energy from nuclear and hydroelectric sources. Moreover, it is going to pay other and countries countries to cut their gases and reach its agreed-upon goals. This act was discussed at the United Nations climate conference as it is considered unfair. All in all, it is in the best interests of all countries to reduce emissions.
