20	I would like to call the story: "The downsides of success. Story of one tearoom". This will be a great title because it shows both the object of the story and the meaning behind it. It's not just a story of a tearoom it's a story about success and how hard it is to actually deal with it. It suggest some ways such as going to broker's and shows difficulties such as too much work for three people.

for what?

I would like to write this letter to nominate one of my teachers. It will be dedicated to her professionalism and personality traits to make her the official nominee of "The Best Teacher of the Year". 36

I'm going to describe my Maths teacher. She has been working at school for around 40 years. She started right after her graduation from one of the best Mathematical universities in the USSR. She is now considered to be a well-known figure between teachers all over our country and she even has her own course in the HSE university. My teacher is in charge of making olympiads for other teachers and a lot of her students study in the greatest universities in the world. 85

Besides being a professional, she is a good person. Our teacher always tells us interesting stories and encourages us to go out. She likes discussing art and biographies of famous scientists. There are a lot of facts in her head. We go to museums often or even visit another cities. For instance, we visited Kirov with her and my classmates last winter. It was an enjoyable experience. 67

I believe that it is hard to find a teacher so engaged in their students' lives. That's why I think that she is a great candidate for this title. 32

With best regards,

—
