ТВОРЧЕСКОЕ ЗАДАНИЕ

Nowadays people started dreaming about space, hoping to find intelligent life forms on other planets. Scientists all over the world are trying to contact aliens and spot a UFO. However, there are different points of view on how we should do it.

Some say that contacting ~~with~~ other life forms might be beneficial. ~~It may~~ They may share their technologies, and ~~it may be~~ Information about their technologies, traditions, culture and language may contribute to the development of our science. Besides, these creatures might share some resources from their planets. ~~It would help to avoid find~~ Therefore, a solution to the problem of the reduce of the natural resources could be found.

In my estimation, making acquaintances with inhabitants of other planets may be dangerous as well. Firstly, there is a possibility that these creatures are not friendly at all. They may try to invade the Earth and seize us and our resources. Secondly, aliens may bring new diseases which could be lethal for human beings. Finally, ~~there may be~~ we may have opposite views on important issues. That may lead to a major conflict between civilizations.

I believe, ~~that~~ attempts to contact other life forms, unequivocally, should be made. However, ~~it we must be careful in our research space exploration should be~~ we must be careful concerning space exploration. (см. на обороте)
