5	<p>To prevent any allergy from striking, any person who has one must know exactly what triggers it and, therefore, try to avoid it. Moreover, people with allergies always have to have some special medicine with them, so that if the reaction starts, they will be able to stop it before it becomes severe and life-threatening.</p>

ТЕСТ. БЛОК 2.

9 класс

Вариант № 3

16	<p>1) F. (...images, video and audio as close to ironclad proof that something is real.) 2) F. (...fakes are rapidly getting harder to spot). 3) T. (Even the best detection system would have no crack to find and no ledge to grasp). 4) T. (Anyone will be able to produce a video of a president or a prime minister announcing a nuclear first strike) 5) F. (reputation and provenance will become more important than ever.)</p>
17	<p>1) New technologies have often made it easier to spread untruths or impersonate the trustworthy. 2) AI is improving all the time. 3) People will learn that audio or video of something do not prove that it happened. 4) Via email addresses and social-media platforms. 5) Because of the mass media</p>
18	<p>1) a strong justification 2) not to be simultaneous 3) to have nothing to prove wrong 4) to make people around the world scared and anxious. 5) to see the unnoticeable work</p>
19	<p>1) Wrecked 2) advanced 3) catastrophic 4) trustworthiness 5) exist</p>
20	<p>It is now possible to generate fake but realistic content very easily by using AI, which is constantly improving and soon will be able to produce digital clones of what an event would have looked like, had it happened. However, dystopian possibilities abound. Fraudsters and fakers will prosper. But, eventually, society will learn to identify untruths.</p>
