ТЕСТ. БЛОК 2.

10-11 классы

Вариант № 2

16	<p>1) But what could the thoughts of those creatures matter to someone who stood there bleeding to death, pierced to the heart, to the heart by such a letter-*</p> <p>2) She knew perfectly well what they were thinking.</p> <p>3) ... the young girls began to feel positively frightened; don't look so doleful, girls</p> <p>4) Pay no attention to letter, must have been mad</p>
17	<p>She knew perfectly well what they were thinking.</p> <p>1) He said he felt disgusted by the idea of getting married.</p> <p>2) Before she read the telegraph, the melody was gloomy, but after she told the girls to sing more cheerfully.</p> <p>3) There was an age gap, Basil was much younger than her.</p> <p>4) On the wings of hope, of love, of joy, Miss Meadows sped back to the music hall; "... this time Miss Meadows' voice sounded over all the other voices - full, deep, glowing with expression?"</p>
18	<p>1) walked through the halls alone</p> <p>2) made deeply sad</p> <p>3) in a serious tone voice</p> <p>4) to feel very scared</p> <p>5) glared at the students</p>
19	<p>1) misery</p> <p>2) inhalation inhaling</p> <p>3) ran back</p> <p>4) podium</p> <p>5) sad</p>
20	<p>I think the title should be "A change of melody". It would be a fitting name because as the plot progresses, the mood drastically changes, which is represented by how the melody the girls are singing goes from sad to happy. The author takes the reader on an emotional rollercoaster with this sudden change.</p>

ТВОРЧЕСКОЕ ЗАДАНИЕ

There are many stances on AI's role in education. On one hand, it can be very beneficial to both teachers and students, but on the other, it may also help some young people cheat their way through school or even university.

I slightly agree with the opinion that Chat GPT may lead to the downfall of education and critical thinking. Personally, I think it's just as important to see the pros of AI as it is the cons. Chat GPT allows students to get help easily, but it can't fully replace the need to do your own research. The answers the machine gives may be incomplete at best and incorrect at worst. When used merely as aid to writing something yourself, however, it can be a great and useful tool. I think instead of being scared into not using it at all, the students should be taught ways to use it correctly. I myself have gotten some help from Chat GPT before, but I don't fully rely on it to do all my work.

In conclusion, I think there's truth to the statement that AI technology makes some people too lazy to do their work themselves. However, that doesn't mean we should completely disregard all its possible positive uses in education.
