ТВОРЧЕСКОЕ ЗАДАНИЕ

It is common knowledge that Chat GPT is becoming more and more popular nowadays. Technologies are developing and becoming more progressive, they are making our life easier, so ~~& &~~ Chat GPT. It can write code, essays, give you some advice, make a tutorial for cooking something. It can do any task. But does it affect our education and critical thinking?

In my ~~view~~ opinion, Chat GPT helps to find a lot of information and generate new ideas. It helps people to see things different and develop imagination. Some people think that Chat GPT may lead to the downfall of education and critical thinking. ~~That~~ That makes sense at some point, people using Chat GPT may become a bit lazy and ~~not~~ irresponsible as they are relying on Chat GPT, but I disagree that it may lead to the downfall of education and critical thinking. Chat GPT helps at education, develops our creativity, save our time doing our tasks so we could manage our others, more difficult tasks and time is priceless for us nowadays.

In conclusion, I believe that modern technologies play a big role in our lives. ~~It~~ ~~is~~ They make our lives easier and are very important, so Chat GPT that even helps us in self development and education.
