Вариант № 3

16	<p>1) "She had a certain fine, rich coloring that belongs to the healthy brune type".</p> <p>2) "She was confidently waiting for him to declare himself and she meant to accept him".</p> <p>3) "The rather unattractive Brantain was enormously rich; and she liked and required the entourage ^{entourage} which wealth could give her."</p>
17	<p>1) Brantain has been courting Nathalie for two weeks,</p> <p>2) It depended on whether his ^{recent} disappearance would affect the proposal of Brantain.</p> <p>3) "I came in with your brother, as I often do," he answered coldly, in self-justification.</p> <p>4) He became amused and defiant after Harvy entered.</p> <p>5) "When they turned to retrace their steps, Brantain's face was radiant and hers was triumphant."</p>
18	<p>1) lent him courage - made brave enough to do something</p> <p>2) eyes fastened - eyes focused at something</p> <p>3) mingled with - played well together with something in context.</p> <p>4) that little encounter - an awkward meeting.</p> <p>5) of long standing - a very old one</p>
19	<p>1) ardently - much</p> <p>2) defiance - hesitation</p> <p>3) entreated - said</p> <p>4) perturbed - weird</p> <p>5) guileless - smooth</p>
20	<p>I suggest, "An awkward encounter" title for this story, because it features two people in love with each other and with the future husband about to propose being interrupted by another person, clueless about what was about to happen in the room he walked into, with the latter apologizing about it and ^{while} feeling confused.</p>

ТВОРЧЕСКОЕ ЗАДАНИЕ

Of course, it will certainly be exciting to contact aliens, so I firmly believe we should send messages to them as actively as possible.

It will most definitely be beneficial for humanity to contact other intelligent life forms. Perhaps, if it would be possible to exchange technology with aliens, we could get a huge boost in scientific progress. We could then broaden our relationships with these aliens and cooperate in the future.

A lot of people believe that there is a possibility that the alien life forms that we can potentially encounter could mean harm to us and seek to conquer planet Earth. I do not believe that it could be true, since the progress that they have supposedly made would be impossible if they were really that cruel. Species with mindsets of warmongers cannot achieve anything, because of their hunger for resources and power instead of a will to cooperate and survive together; therefore the idea of a violent intergalactic empire is self-contradicting.

In conclusion, I would like to say that scientists should definitely work on the ways of sending messages to intelligent life forms on other planets, because everything it can give us will be beneficial for humanity, and it will lead us to a better future.
