Вариант № 2

16	<p>1) "...stood there bleeding to death, pierced to the heart..."</p> <p>2) "Mealy is in a wax"</p> <p>3) "...felt positively frightened..."; "...some of the younger ones began to cry"</p> <p>4) "Pay no attention to letter, must have been mad..."</p>
17	<p>1) Basil had written that the idea of marriage filled him with disgust.</p> <p>2) Initially, when she was miserable, she told the girls to sing a gloomy song, but when she cheered up, she told them to sing a happy one.</p> <p>3) Because she was thirty and her fiancée was five years younger.</p> <p>4) "On the wings of hope, of love, of joy, Miss Meadows sped back..." ; "And this time Miss Meadows' voice sounded over all the other voices - full, deep, glowing with expression."</p>

20	<p>I believe a a suitable title for the story would be "The Music Teacher". First, it fits the story because the main character, Miss Meadows, is a music teacher. Also, music plays an important role in expressing her mood throughout the plot. Finally, this title is vague but catchy, enough to grab the reader's attention.</p>

ТВОРЧЕСКОЕ ЗАДАНИЕ

THE POSSIBLE NEGATIVE EFFECTS OF CHAT GPT
ON HUMANITY

There is a widely held belief that the development of AI brings improvement to the world. However, some may argue that it can lead to ~~the~~ a decline in people's education and critical thinking. In this essay, I would like to elaborate on this claim, using Chat GPT as an example of artificial intelligence.

Firstly, as Chat GPT can produce text on almost any subject, ~~many~~ many students are beginning to use it to complete their written assignments for them. Without doing their assignments, the children do not learn anything, thus creating a generation of uneducated people.

Secondly, some might find talking to Chat GPT more enjoyable than talking to real people since ~~Chat GPT~~ ^{Chat GPT} cannot disagree with them or be offended. However, if one is never debated on anything, they might lose their ability to critically assess the world around them ~~as~~ as they will feel that they are always right.

In conclusion, I believe that everything stated above proves that artificial intelligence and Chat GPT in particular may lead to a decline in humans' cognitive abilities, ~~this prospect poses a threat to humanity~~ ~~as~~ which cannot be ignored and, overall, to the downfall of education and critical thinking.
