16	<p>1) "But what could the thoughts of those creatures matter to someone who stood there bleeding to death, pierced to the heart..."</p> <p>2) "Meaty was in a wax."</p> <p>3) "The ... the younger girls began to feel positively frightened." "The older girls were crimson; and the some of the younger ones began to cry".</p> <p>4) "... must have been mad..."</p>
17	<p>1) He thought the marriage would be a mistake and he couldn't see himself settling down.</p> <p>2) At first, she chose a dreary piece to reflect her sour mood, but after the second letter, she changed the music to joyful, as was she at the time.</p> <p>3) She was thirty, Basil was twenty five</p> <p>4) "Pay no attention to the letter...", "... bought hat-stand..."</p>
18	<p>1) walked through the cold corridors.</p> <p>2) shaken to the core</p> <p>3) a stern tone</p> <p>4) to feel immensely scared</p> <p>5) smiled at the girls</p>
19	<p>1) weight</p> <p>2) hearing</p> <p>3) ran back</p> <p>4) corridor</p> <p>5) frightened</p>
20	<p>I suggest "A Broken Heart, Mentet" as the title for the story. It reflects the very essence of the plot without spoiling too much for the reader while it also hooks them in at the same time. It also reflects reflects the poetic nature of the setting that the story takes place in.</p>

ТВОРЧЕСКОЕ ЗАДАНИЕ

The use of artificial intelligence and generative algorithms is increasing with each passing day. Amongst this all-time high in AI popularity, many people voice concerns about these tools. But are these legitimate issues? Let's take a look at the claims.

The main concern is that AI may lead to the downfall of education and critical thinking. There is evidence for that already. Many teachers are alarmed by the rampant use of Chat GPT among students, as signified by many posts across social media platforms. Commonly, AI tools are used to do homework, which is a crucial part of the education process. Substituting one's own effort with generated answers may lead to critical thinking skills being stunted.

However, I don't do not think that this will lead to cause the total collapse of education. Let's think back to the time when the Internet was gaining popularity. Many people voiced the same concerns as now. While the Internet did damage the process of education, this harm was reduced as time went on and people actively worked on repairing the damage.

In conclusion, I believe that Chat GPT will not lead to the downfall of education and critical thinking. We should focus on controlling and reversing the damage that it may deal to the education process instead of perpetuating rumors paranoia and fearmongering.
