However she would probably meet her love soon, because she also hadn't wanted to move to Malaysia. Although over time she fell in love with the country. So the story suggests that we should wait some time, and all difficulties will disappear.</p>

ТВОРЧЕСКОЕ ЗАДАНИЕ

Nowadays Chat GPT has become a really common system. I partly agree with the idea that Chat GPT may lead to the downfall of education and critical thinking.

On the one hand, people from various professions use it actively. For example, Chat GPT simplifies teacher's ~~work~~ ~~time~~. The system can create a lesson plan, find ~~use~~ useful methodological recommendations, make up mark papers. Moreover, Chat GPT can compose personalized letters for parents, so it simplifies the communication between parents and teachers.

On the other hand, some students use this system to write essays or other school tasks. This tendency has a crucial downside: such students do not improve their knowledge, do not broaden their horizons. Thus they do not develop their crucial thinking. That is why in future such students will not be able to become unique and irreplaceable employees. Moreover, Chat GPT has replaced many workers performing monotonous activities. So the absence of the need to analyse data or create simple images for program screensavers may lead to unemployment.

Personally, I believe that although Chat GPT simplifies the work of many professions, at the same time it negatively affects dishonest students. In my essay I tried to prove my opinion that Chat GPT may lead to the downfall of education and critical thinking.
