ТВОРЧЕСКОЕ ЗАДАНИЕ

Today an idea of Chat GPT ~~being~~ being a beginning of educational and critical thinking decline is becoming more and more ~~pre~~ widespread. I am not an adherent of it because in my point of view the thought of replacing human brain is absurd. ^{AI}

Firstly, ~~if~~ if we look through all the texts written by Chat GPT, we may see that critical thinking never was one of its fortes. Numerous logical mistakes and sentences that are not connected prove it. ~~It demonstrates~~ Instead ~~of reducing~~ ^{of reducing} critical thinking, ~~it~~ ^{ChatGPT} stimulates it. While using ~~it~~ ^{it} we ~~think~~ need critical thinking even more to find all the logical mistakes and correct them.

Secondly, education ~~is~~ only benefiting ~~ing~~ from new sources of information such as Chat GPT. If students use it wisely they will only sharpen their wits. Even though some may use it to cheat or to get their creative tasks done, they will need to rewrite parts of it to correct mistakes and ~~through~~ through this they will understand the subject ~~even~~ even better as they ~~will~~ will ^{check} ~~more~~ everything twice.

~~In~~ In ~~conclusion~~ conclusion, I would like to ~~say~~ say that AI is a part of ~~the~~ technological development and while making our lives easier it also brings new difficulties and problems for us and our brain to overcome, thus leading us to an intellectual prosperity.
