Вариант № 3

16	<p>1) She had a certain fine, rich coloring that belongs to the healthy brune type.</p> <p>2) She was confidently waiting for him to propose ^{declare} himself and she meant to accept him.</p> <p>3) Brantain was enormously rich; and she liked and required the entourage which wealth could give her.</p> <p>4) She was almost weeping. Her voice had grown low and agitated.</p>
17	<p>1) Brantain had been courting Nathalie for two weeks.</p> <p>2) Nathalie's decision to forgive Harvey or not depended on a good deal of things.</p> <p>3) "I came in with your brother, as I often do."</p> <p>4) Brantain's mood went from miserable to hope hopeful.</p> <p>5) "When they turned to retrace their steps, Brantain's face was radiant and hers was triumphant."</p>
18	<p>1) gave him courage</p> <p>2) gaze on</p> <p>3) mixed with</p> <p>4) that meeting</p> <p>5) who I knew for a long time</p>
19	<p>1) long</p> <p>2) resistance</p> <p>3) pleaded</p> <p>4) forced</p> <p>5) clueless</p>
20	<p>I think that the title for the story should be "There is not a courtship without accidents". In my opinion, this title would suit the story because while courting Nathalie, Brantain's accidental meeting with Harvey almost caused him to lose hope in his success with the woman. However, in the end it turned out great for them.</p>

ТВОРЧЕСКОЕ ЗАДАНИЕ

Some scientists think that there are intelligent life forms on other planets and we should send messages to contact them. Others ~~think~~^{say} that getting in contact with aliens might be not as safe as the first group thinks. There are enough arguments to support both positions on this topic.

First of all, being able to receive radio ~~sign~~ signals means that aliens have evolved enough to develop such advanced technology. In turn, it means that their life values have developed as well. ~~The~~ Consequently, such life forms must be peaceful and open to negotiation, so it should be safe to send them messages and even invite them to visit our planet.

However, it is also worth considering that the aliens might not be as peaceful as some may think. Having an advanced civilisation might also mean that such life forms could also deal with overpopulation, and there are not any guarantees that aliens would ~~not~~ try to conquer our planet. So, it may not be completely safe to invite them to our planet, but it is worth advising them to have negotiations in space or on ~~the~~ a space station.

In my opinion, I agree more with the second side. While we should still try to contact ~~with~~ aliens, it would be better to meet them in person far away from our planet.
