ТВОРЧЕСКОЕ ЗАДАНИЕ

NO MESSAGES TO SPACE

As far as the human race is aware, there are no ~~other~~ ^{intelligent} forms of life ~~in the outer space.~~ ^{on other planets.}

However, the lack of evidence does not stop some scientists from believing that they exist and trying to contact them. There are two reasons why under no circumstances should we ever send any messages ~~on other pla~~ in the outer space.

The first one is purely pragmatic. Mankind does not know for sure ~~if~~ ^{went there} the aliens ~~exist~~, and if they do not, ~~producing and sending~~ out different devices that would contain information about the Earth and its inhabitants for them is simply a waste of resources.

The second reason is frightful, ~~and should~~ ~~definitely be taken in consideration.~~ There is still a probability of other intelligent life forms ~~living~~ in the space, since it is so vast ~~literally~~ anything could happen there. If they ~~do~~ ^{are there} we have no clue ~~why~~ ~~what~~ their intentions might be and how much more technologically advanced than humans ^{they} are. In case this hypothetical ~~unknown~~ species finds out about us ~~the Earth's~~ ~~inhabitants~~ via our messages, they might wage a war against us, colonise us or ~~completely destroy our planet and steal all~~ our ~~the~~ resources. So much for making friends with aliens.

In conclusion, our safety and resources are more important than childish dreams. No actions should be taken until we have proof that other civilizations exist.
