Вариант № 3

16	<p>1) She had a certain fine, rich coloring that belongs to the healthy brune type. +</p> <p>2) She was confidently waiting for him to declare himself and she meant to accept him. +</p> <p>3) "What do you mean by entering the house without ringing?" +</p> <p>4) ... with a delicious frankness of manner / ... she asked with an engaging but perturbed smile. - 3</p>
17	<p>1) for two weeks +</p> <p>2) upon a good deal -</p> <p>3) "I came in with your brother, as I often do," +</p> <p>4) hope was plainly gazing the ascendancy over a ray of hope tingled with the misery in his face. his expression showed ascending hope. -</p> <p>5) When they turned to retrace their steps, Brentain's face was radiant and hers was triumphant. + 3</p>
18	<p>1) gave him attractiveness / made him look attractive -</p> <p>2) keep the gaze on sth / sb ; look at sb precisely -</p> <p>3) mixed with +</p> <p>4) that short (and occasional) meeting / date +</p> <p>5) since a very young age (for a long time already) + 3</p>
19	<p>1) eagerly +</p> <p>2) surrender -</p> <p>3) pleaded begged +</p> <p>4) calm -</p> <p>5) shameless - 2</p>
20	<p>"Intense Emotions Fervent Love" would be a great title for the presented story as it describes the full scope of emotional diversity that is mentioned in the story. Moreover, it implies that the relationship between fictional heroes is not tranquil and some heart-fire is intrinsic to the couple. 3</p>

ТВОРЧЕСКОЕ ЗАДАНИЕ

Some scientists think there are intelligent life forms on other planets and messages should be sent to contact them. To what extent do you think it should be done? Write an essay to argue your point. Write between 200-220 words.

SHALL WE CONTACT THEM?

The phenomenon of ~~extraterrestrial~~ aliens and intelligent life forms beyond our ~~planet~~ ^{planet} has always interested us. Scientists believe that we ~~ought~~ ^{should} ~~attempt~~ to contact them ~~eventually~~, yet there exist various opinions ^{about} ~~on~~ this issue.

I think that we really ~~should~~ ^{ought to} send messages to the potential representatives of intelligent life on other planets because their ~~possible~~ response or reaction on our attempts would mean an incredible success in science. If we ~~are~~ ^{were} to witness such a significant leap in the overall understanding of the universe, this would entail serious ~~benefits in terms of~~ improvements in cosmological theories. For instance, we could freely rely on ~~many~~ beliefs and assumptions concerning aliens ~~and other forms of intelligence~~, and that would bring more ~~accuracy~~ precision in cosmology itself. ~~Moreover, a possible discovery of life that is capable of communicating and is not located far away might help the Earth's population solve many problems in terms of ecological damage, as we would migrate to the planet that~~ Moreover, a possible discovery of intelligence ~~on~~ ^{on} other planets would imply that these planets have ~~quite a different~~ climate and nature that ~~are~~ appropriate for life. This would help us solve many ~~problems~~ ^{ecological problems} ecological damage, as we would be able to migrate to the discovered planets and inhabit them. In addition, communicating with unfamiliar forms of intelligence would ~~possibly~~ result in ~~gaining~~ ^{new ideas and} learning various ideas and basic life principles of the newly discovered races.

To conclude, I ~~do~~ believe that ~~mess~~ trying to contact extraterrestrial life is a vital aspect for us. ~~Probably~~ If we are lucky enough, we may witness a turning point in the ~~later human beings' history~~ history of humanity.
