ТВОРЧЕСКОЕ ЗАДАНИЕ

There is no doubt that AI has already greatly influenced our lives. But does it mean that the usage of Chat GPT is going to lead to the downfall of education and critical thinking? Let's see.

First of all, Chat GPT has become popular among students who use it to write essays and complete other creative tasks at school or in university. This tendency may certainly lead to the downfall of their personal ability to analyse information and use their imagination. In my opinion, lack of experience in formulating your own thoughts and opinion may result in not being able to think critically. Second of all, ~~the usage of~~ Chat GPT makes the process of education less useful for society, as graduates become less competent. Thus, the usage of this technology threatens the quality of education and services offered to us.

Nevertheless, I don't believe that Chat GPT and ~~similar~~ similar technologies should be completely banned. The main point is to ~~use~~ apply them where it is suitable and ~~pro~~ useful for you personally and society in general.

To sum up, Chat GPT is a tool that is profitable for us in many ways. ~~It~~ ^{it} gives us the ~~possibility~~ ^{unique} possibility to reduce all the monotonous work and have time ~~to~~ to be ~~of~~ creative.

But the best thing about is that
