ТВОРЧЕСКОЕ ЗАДАНИЕ

There is no doubt that Chat GPT may lead to the downfall of education and critical thinking. Of course, I agree with this idea because I think that Chat GPT can help adolescents get education better than they get it at school. If young people miss their lessons because they are ill, they will use Chat GPT to prepare their exams, lessons and tasks. It is the best creation which people could do. And also I can say that nowadays there are a lot of new things which can help youth people with their homework. Although, adults also use this type of new creation in our life. There are a lot of AI systems. For example, Chat GPT, Google search, Yandex search and etc. New domestic appliances do our life easier.

I've used Chat GPT to prepare my exams, do my homeworks and found new information for me.

There are a lot of problems using Chats GPT, but I think people try to delete all disadvantages. And my classmates always say that Chat GPT good thing for them because them hard to find information themselves.

In conclusion, I would like to say that Chat GPT may lead to the downfall education and nowadays it is important to use this resource. And also every teenager use this resource often.
