ТЕСТ. БЛОК 2.

10-11 классы

Вариант № 1

16	<p>1) "It was as cold and alien as Malaysia seemed six years before"; "her life in London merely the hopefully forgotten past"</p> <p>2) "She had thought she was going to hate living there, hate everything"</p> <p>3) "Did I really help because Mummy said I was probably more nuisance than I was worth?"</p> <p>4) "In the beginning, this knowledge had caused Julie no little anxiety"</p>
17	<p>1) Six years</p> <p>2) handed out magazines</p> <p>3) She possessed that certain something that singled her out</p> <p>4) "a throng of people were waiting impatiently and Julie hugged her coat closer about her usual identity, feeling cold and apprehensive"; "she wanted to delay the moment when she must take up contact again with Michael's family"</p>
18	<p>1) it was her responsibility</p> <p>2) eyes <del>show</del> showing her emotions and attitude</p> <p>3) Julie smiled a little bit</p> <p>4) <del>standing</del> bunch of people</p> <p>5) touched her hand, pulled it abit</p>
19	<p>1) ugly</p> <p>2) cunningly</p> <p>3) <del>amused</del> stirring</p> <p>4) <del>mean</del> worried</p> <p>5) unhappy</p>
20	<p>"Welcome home?"</p> <p>Such phrase, welcome home, is usually used to greet a person and congratulate on arriving. In this situation, it can be a kind of ironic hint on the fact that, although London is Julie's home or at least was it, she doesn't think of it as her home any more and she isn't willing to return to her old life. Some people might think she is happy and even congratulate her like this, when she herself isn't. Such little can show that</p>

ТВОРЧЕСКОЕ ЗАДАНИЕ

It is said that Chat GPT may lead to the downfall of education and critical thinking. I partly agree with this statement. To my mind, Chat GPT can be not only a threat to development and education, but a useful tool, used for the best, which can even help with that same education.

On the one hand, it can be harmful, especially to teens and children. Nowadays, if they do not want to do or understand something, they order Chat GPT to do that. It results in loss of intelligence, does not allow critical thinking to form and the students to get a proper education.

On the other hand, not only these facts should be considered. Although Chat GPT can be blamed for all that was mentioned it can also help. For example, create an idea or find information, which the person, the student, will later develop himself, broaden the mind, allow to learn something new.

To sum up, I would like to state, that if the level of education is good only a small percent of people will use such ways to "study", mostly the ones who would not learn properly anyway, while if it is poor itself, there is no chat to blame. In my opinion, we should pay more attention to the system of education in general, not be angry with the technology, which can be harmful, yet not always is, but can be helpful too.
