ТЕСТ. БЛОК 2.

10-11 классы

Вариант № 2

16	<p>1) "But what could the thoughts of those creatures matter to someone who stood there bleeding to death, pierced to the heart..."</p> <p>2) "...the younger girls began to feel positively frightened."</p> <p>3) "The older girls were crimson; some of the younger ones began to cry." "Don't look so doleful, girls."</p> <p>4) "Pay no attention to letter, must have been mad, bought hat stand today.."</p>
17	<p>1) It was the fact that Basil scratched out the word "disgust", which meant that their engagement was broken off.</p> <p>2) When Miss Meadows felt unhappy, she picked gloomy melodies for her students, and when she became happy, she started playing joyful and warm music.</p> <p>3) It was because she was 30 year old and older than her husband.</p> <p>4) "On the wings of love, of hope, of joy, Miss Meadows sped back to the music hall..."</p> <p>"And she beamed at her girls."</p>
18	<p>1) Dreadfully went through the cold corridors.</p> <p>2) Deeply hurt by something important.</p> <p>3) A metallic tone.</p> <p>4) To be frightened respectfully.</p> <p>5) Smiled radiantly to her students.</p>
19	<p>1) dreadfulness</p> <p>2) exclaiming</p> <p>3) ran</p> <p>4) march</p> <p>5) joyless</p>
20	<p>I suggest a title "Ever-changing melodies of the heart" for the story. It fits the part of the plot in which the main characters changes the music choice for her students based on the mood she is in. The title also highlights the changes in the feelings of Basil which worried his wife.</p>

ТВОРЧЕСКОЕ ЗАДАНИЕ

The way Chat GPT impacts our daily life has been a debatable topic ever since it was first introduced. People say that AI may lead to the downfall of education, critical thinking or even humanity. However, I disagree that AI only impacts these fields negatively.

With the help of Chat GPT one is able to advance their skills efficiently and absolutely for free. For example, there is AI that can help one learn a language by conversing with them, while most ^{language} learning apps are inaccessible due to their high subscription prices. Moreover, AI helps make education available for everyone and inclusive. For example, people with neurodivergent conditions like autism and ADHD can use Chat GPT to summarise and highlight the main points of big chunks of text that their developmental disabilities make impossible to process.

Neither do I think that AI can affect our critical thinking globally. It is common knowledge that not all information provided by artificial intelligence is accurate. Even if AI will be fully integrated into the education process, as long as there are humans, they will remain sceptical.

To conclude, there are useful features in Chat GPT that humans can utilize. AI can enhance the education field greatly and give people with special circumstances an opportunity to develop their skills.
