5	<p>Unfortunately, scientists have not discovered any ^{to} ways for making people less allergic for certain proteins yet. The best way to prevent allergy reactions is avoiding things that you are allergic to. I would personally recommend to take a medical test for better understandance of food and environmental triggers that cause one's allergy.</p>

Вариант № 3

16	<p>1) This is false, because nowadays AI generated videos and audios can be easily spotted, so images and videos can be still used as a proof.</p> <p>2) This statement is true, because AI-generated content is easily spotted by strangely rendered hands.</p> <p>3) This statement is false, because people would be able to avoid fakes by checking the source.</p> <p>4) This is true, because AI is able to generate videos or audios with fake information.</p> <p>5) This is true, because content itself will not be a proof anymore.</p>
17	<p>1) The fakes were firstly spread by sharing news and communitating in real life, but after invention of the Internet it became easier to spread false information.</p> <p>2) Because of AI development it becomes harder to say whether the image is fake or real.</p> <p>3) People will have to pay more attention to the source of the information.</p> <p>4) Reliable sources are the sources which have reputation, such as famous TV channels.</p> <p>5) Before any video could be used as a proof, but now people would have to be more attentive.</p>
18	<p>1) The absolute evidence of something</p> <p>2)</p> <p>3) to be impossible to be claimed as false</p> <p>4) make people worldwide question their future</p> <p>5) see the source of something</p>
19	<p>1) image</p> <p>2) developed</p> <p>3) awful</p> <p>4) evidence</p> <p>5) scare.</p>
20	<p>The development of AI is causing a lot of danger. It became possible to create an audio or a video which can be used as a proof of any event. However, the society will adapt to the fakes. People would have to take all of the news with a pinch of salt and check the information of various sources.</p>
