20	<p>"Heart and Music" would be a nice title for this story. The reason for this is the story showcasing the main purpose of music, which is to express human emotions. Miss Meadows immediately changing the mood of the song once she learns that her engagement has been reinstated and there is nothing to mourn proves just that.</p>

ТВОРЧЕСКОЕ ЗАДАНИЕ

Save our education

Nowadays, it is hard to imagine life without ~~AI~~ Artificial Intelligence. Students ~~get rewarded~~ ^{write} for ~~writing~~ ^{academic} papers using AI as a tool and bookstores are full of novels with AI-generated covers. So, while explaining to their grandmother that the video she saw online was made by a computer, one might start questioning; isn't this whole situation ~~a bit~~ dystopian?

First, we should note that the start of the AI being widespread was the ~~recent~~ evolution of Chat GPT. It is argued that a computer writing paragraphs makes it possible for society to get unbiased opinions on the state of the world. ~~and for scientists to get help~~. However, I do not find this ~~text~~ tool so flawless.

There is ~~an~~ ^{stating} ~~opi~~ ^{claiming} ~~popular~~ opinion ^{stating} that Chat GPT will ~~be~~ ^{the} lead to ~~a~~ downfall of education and critical thinking. Personally, I find it hard to disagree with this ~~statement~~ ^{statement}. A tool that was intended to help people is now putting professionals out of work; recently, a ~~famous~~ language learning app replaced most of its staff with AI. It is truly outrageous that a computer is now teaching humans how to communicate. ~~with each other~~. Moreover, it is unlikely that one would like the surgeon ~~operating them~~ performing their operation to have his academic works written by Chat GPT.

Summing up, it is worth mentioning that AI is unable to work without recycling human talent and research. There needs to be legislation passed limiting the use of Chat GPT so ~~our~~ ^{society, was} ~~people have~~ more control over our future.
