ТВОРЧЕСКОЕ ЗАДАНИЕ

~~The issue of using~~ Chat GPT and its impact on our society causes a lot of arguing. Many people say that it may lead to the downfall of education and critical thinking. Personally, I strongly disagree with this statement and would like to provide several ~~arguments~~ reasons.

To begin with, even receiving a required text or answers can be useful, as students still need to read them, analyze and rewrite. These steps will help students memorize the data, ~~even~~ although they ~~have~~ ^{have} not searched for it ~~himself~~ themselves.

Moreover, the active usage of Chat GPT may result in the students' desire to develop it and add more functions, which may lead to some ~~int~~ great inventions in the future.

Furthermore, tasks which require creativity are gaining popularity in modern schools. In my opinion, Chat GPT cannot be conscious, consequently creative, so students ~~will~~ still need ~~there~~ their critical thinking.

Having listed the advantages of Chat GPT for the students, I would like to mention that it is very relevant and useful for teachers. They can avoid spending hours ~~searching for~~ preparing ^{various} worksheets and tasks for the lessons, by asking Chat GPT to do them.

To sum up, I would like to emphasize that Chat GPT is very convenient in terms of education. It is just crucial to determine how to use it in a right way.
