In our world filled with technologies and advances that ^{which} basically do everything for the mankind, it's no secret that, at some point, it will turn against us. And, unsurprisingly, many people ~~have~~ have already been noticing leads of concerning accidents, many of which were connected with Chat GPT. ^{This programme} ~~Chat GPT~~, with its intelligence, definitely holds a valuable place in modern world. However, this place should be taken by none other than humans, that already got to enjoy too much of someone or, in our case, something, doing their work for them. Of course, I agree with the idea of Chat GPT leading to people's downfall, because our existence was always counting on our own abilities and without constant progress and training they might simply disappear, leaving us with nothing but machines.

These machines, on the contrary of many's beliefs, are going to destroy us and our minds. We cannot trust an Artificial Intelligence ~~to do~~ near our education.

Most of the students started to rely on Chat GPT, which leads to a concerning question: What do they learn in doing so? What is "the possible future" in a world with ~~take~~ specialists, that can't

It is no secret that our world, filled with technologies and advances, which can do unbelievable things, is doomed, if we don't consider getting rid of AI. ~~and~~ the mankind has always been relying on ~~its~~^{their} own abilities and ideas. However, ~~something~~^{it all went} ~~went~~ too far, which threatens our existence.

do their work properly? If you still have ^{some} critical thinking, you definitely know the answer. Unless we do something about such problems, the world will continue falling down.
