ТВОРЧЕСКОЕ ЗАДАНИЕ

For many people it is great concern, does chat GPT make positive or negative impact on people. To my mind chat GPT cannot make too much problems in our world. People should use GPT chat to make their lives easier because nowadays people ~~can~~<sup>need to</sup> find and use too much information and not everyone can work with it fast. ~~and~~ But chat GPT is a computer, it can hold and use much more information than people.

If someone afraid that GPT chat ~~becomes~~ too clever and ~~can~~ make something <sup>negative</sup> bad on people, people should make some rules that chat GPT ~~can't~~ must do. GPT chat can make life easier for many people, for example for doctors that sometimes need to remember too much medicine terms or symptoms. When doctors use chat GPT, they ~~can~~ make their work faster and better.

GPT chat is also a bit dangerous, but not for everyone. To my opinion chat GPT can ~~make~~ ~~it~~ makes a negative impact on students. Young people learn how to use new gadgets or internet sites very fast and if they would use chat GPT for learning something or doing some ~~exercises~~ exercises, they will ruin their own potential and future.

In conclusion, I would like to point out that people should ~~not~~ be afraid chat GPT but they should learn how to use it in the ~~right~~ right way, without negative effects on their lives.
