ТВОРЧЕСКОЕ ЗАДАНИЕ

Nowadays more and more people are beginning to think that Chat GPT might provoke the decrease in ^{the} level of education and lead to the lack of critical thinking skills among students. However, there are still those who are sceptical about it.

On the one hand, Chat GPT is a revolutionary technology that is able to perform a wide variety of ^{tasks} ~~actions~~ almost without humans' help. Therefore, ^M modern students are ^{can} ~~likely~~ ^{easily} to use it to successfully complete their school or university tasks. ~~They~~ They do not need to analyse a lot of data, ~~from different source,~~ all they need is just a ~~specific~~ specific question to Chat GPT. ~~that will do all that work instead of them.~~ Such an easy way to do ^{their research} ~~all tasks~~ is likely to result in the downfall of education and lack of critical thinking skills.

On the other hand, Chat GPT technology has not become perfect yet. It still makes mistakes, so students who use it have to check everything ^{attentively} ~~carefully~~ that requires critical thinking skills. Furthermore, doing tasks with the help of Chat GPT is not always about just copying the texts. If you use this ~~techno~~ technology wisely, it can ~~beca~~ become a brilliant assistant and be really useful for your studies.

In conclusion, I believe wholeheartedly that Chat GPT doesn't cause the downfall
