20	<p>An unhappy come back. Julie came back to London after being away for a few years. However, this place did not feel like home anymore. Everything seemed dark and dull after the life in Malaysia. Moreover, Julie was supposed to meet her husband's family, but did did not want to. All of that made Julie's come back unhappy.</p>

ТВОРЧЕСКОЕ ЗАДАНИЕ

Chat GPT may lead to the downfall of education and critical thinking. To what extent do you agree with this idea? Write an essay to argue your point. Write between 200-220 words.

Chat GPT has developed very fast and now there are lots of discussions whether it is good or bad for us.

To me Chat GPT looks a bit concerning and I am also worried that it can affect education and critical thinking in a bad way. Many people already use this technology for doing homework, projects, writing essays, articles, even for making a to-do list for a day. So, in my opinion, due to the usage of Chat GPT people are tend to become lazier and to start thinking less, despite the fact that they call it "being productive". As for the education, I do not believe that it will disappear. Of course, there is no point in giving a task to write an essay or a report if students are not going to do it themselves. But such technologies as Chat GPT will definitely make us change all of the educational systems around the world. The education as we know it may become unrecognisable in the future because of Chat GPT and other developments, but it will exist.

Overall, I think that Chat GPT is an invention that is going to affect all parts of people's lives, including the ways of thinking and learning. We will soon see and realize how influential it actually is.
