Вариант № 3

16	<p>1) She had a certain fine, rich coloring that belongs to the healthy brune type.</p> <p>2) She was confidently waiting for him to declare himself and she meant to deceive him.</p> <p>3) The rather unattractive Brantain was enormously rich and she liked and required the entourage which wealth could give her.</p> <p>4) ... she asked with an engaging but perturbed smile. (...). She was apparently very outspoken.</p>
17	<p>1) Brantain had been courting Nathalie for "two weeks past".</p> <p>2) Nathalie's decision whether to forgive Harvey or not depended on what Brantain will think of her if she does.</p> <p>3) Phrase "... Mr. Harvey is an intimate friend of long standing... we have always been like ... > brother and sister" shows that Harvey was a frequent visitor at Nathalie's house.</p> <p>4) In the beginning, "when Nathalie took his arm and walked away with him, a ray of hope mingled with the almost comical misery of his expression". But then, when N. started speaking, "hope was plainly gaining the ascendancy over misery in Brantain's face". 5) "Brantain's face was radiant and hers was triumphant".</p>
18	<p>1) lent him courage — made him be brave enough to do smth</p> <p>2) eyes fastened — a sight concentrated on one exact object</p> <p>3) mingled with — mixed with</p> <p>4) that little encounter — an accident, an unpleasant situation/conversation</p> <p>5) of long standing — a person who has been smb's friend for a very long time</p>
19	<p>1) ardently — attentively</p> <p>2) defiance — suspiciousness</p> <p>3) entreated — begged</p> <p>4) perturbed — fake</p> <p>5) guileless — plump</p>
20	<p>The title I would give to the story is "How to manipulate people in an effective way." The main female character of the narration — Nathalie — behaves the way she needs to make Brantain act the way she wants him to. And, actually, Brantain does what Nathalie desires him to do.</p>

ТВОРЧЕСКОЕ ЗАДАНИЕ

Nowadays, a number of ~~scienti~~ researchers believe that there are sensible creatures who live on other planets. Furthermore, these scientists insist on sending messages to contact the life forms mentioned. Today I am going to elaborate on the topic given and answer the question ~~to what extent~~ I agree with the scientists or not.
_{whether}

To start with, as far as I know, there are no proper proofs that ~~it there that the~~ intelligent creatures exist on other planets or not. Given this fact, researchers cannot be sure where the smart life forms might be located and what language they may use to communicate with each other. ~~For~~ Consequently, scientists are unlikely to make up a signal that will be understood by the aliens and interpreted in a right way.

Apart from what I have already said, clever creatures from other planets may be hostile to unknown civilizations. Even if humans are able to contact aliens, ~~there is~~ we cannot be certain how they will treat us. There is a risk of a war between humans and aliens started. For this reason, I consider sending messages to other intelligent life forms dangerous and threatening.

In conclusion, I would like to say that there is no evidence whether sensible life forms exist on other planets or not. But even if they do, it may be risky to contact them. 217
