Вариант № 2

16	<p>1) But what could the thoughts of those great words mean to someone who stood there bleeding to death, pierced to the heart, to the to heart.</p> <p>2) Money to me that the younger girls least to feel</p> <p>3) The older girls were cruel; some of the younger ones began to cry.</p> <p>4) Pay no attention to letter, must have been mad, bought that - said to.</p>
17	<p>1) Basil didn't want to marry her.</p> <p>2) At first, he wanted to hear more expressions. But when he was in a good mood, he wanted to hear warm, joyful, calm.</p> <p>3) -</p> <p>4) -</p>
18	<p>1) To be in a bad mood when everything around seems cold</p> <p>2) Something really disappointing</p> <p>3) When you talk to someone with no expressions.</p> <p>4) To be scared</p> <p>5) To be kind with someone.</p>
19	<p>1) Sad</p> <p>2) To talk silently.</p> <p>3) To return.</p> <p>4) -</p> <p>5) Disappointing.</p>
20	<p>To my mind, the most suitable title for this story is "Different mood, different ^{action} action". In this story we can read about a teacher with mood swings which terribly affect at children.</p>

ТВОРЧЕСКОЕ ЗАДАНИЕ

I agree that Chat-GPT may lead to the downfall of education and critical thinking. Nowadays many students do not want to find the information or to write the essay as it is much more convenient to use neural networks which can make it for you. This leads to downfall of education.

For example, a student has to make a project. He doesn't find information himself, he doesn't analyse the data. The only thing he does - he writes his demand to Chat-GPT which writes full project for him. ~~But~~ If he made his project before, he would have to find the information himself in the libraries or on the Internet. When he searches the data, he analyses it and expand his horizons ~~which~~ which ~~would~~ would be useful in future.¹²⁸

Talking about critical thinking, it downfall as well as education. When one doesn't has Chat-GPT nearby, he wouldn't be able to act himself as he doesn't know what he is suppose to do.¹⁶²

To conclude, I'd like to say that neural networks are very useful but one shouldn't always use it. It must be used only in the time of high demand. We shouldn't use Chat-GPT to write essays or projects.
