

Евразийская лингвистическая олимпиада
Заключительный тур 2024-2025

Талон ответов

Шифр АЯ9304-25

Заполняется Оргкомитетом олимпиады

АУДИРОВАНИЕ

9 класс

Вариант № 2

	a)	b)	c)	d)	e)
1	5	8	1	7	3
2	2	1	3	2	1
3	4	4	3	1	2
4	4	1	3	1	4

5	While computer-based learning is becoming increasingly more popular these days, many people still prefer learning and teaching in person. The reason being that as opposed to a machine, learning in person provides both the student and the teacher with more flexibility, meaning a student is able to ask questions and their teacher is able to give better explanations.

9 класс

Вариант № 2

16	1 F, "This <maths anxiety>... and possibly becoming a life-long issue" 2 T, "categorises ... effort" 3 F, "Every ... solutions" 4 F "measured ... technology" 5 T "With ... possible"
17	1 Those, who suffer from maths anxiety 2 It helps visualize the problems 3 Questions were asked traditionally and mathematically 4 Mathematically phrased questions increased motivation 5 With the right strategies
18	1 "provoking a sense of failure" 2 Those, who think they can improve through effort 3 Doesn't have enough supporting material. 4 can be solved differently 5 a habit that developed in the past
19	1 difficult 2 struggling 3 acknowledge 4 destroy 5 visually
20	For some people math can be difficult and even scary. This phenomenon is called "math anxiety", a term derived from the mind set theory. A theory, that separates people into two groups: fixed and growth in mindsets. Research was conducted disproving it and concluding that presenting students with problems that have multiple solutions helps with this anxiety.
