ВАРИАНТ № 1

In many parts of the world, there is not enough food for everyone. In my opinion, this situation can be caused by different factors and although it can be very difficult to ~~overcome~~ solve this problem, we should find a solution.

I think that among the factors that can cause this problem are different climate conditions and landscapes. Some countries are located in such places that do not have enough ~~soil or~~ water or proper soil to grow crops. Moreover, some places where people live are isolated from other inhabited areas and it can be very difficult or even impossible to ~~bring~~ trade with people living there and help them if they do not have enough food.

This problem ~~engage~~ endangers ^{a lot of} people's lives all over the world and this is why we should solve it as fast as we can. I believe that if we create some gene-modified crops, for example, that can grow in different conditions, it can help improve the situation. ~~Plus~~ Moreover, building ~~new~~ roads and finding new ways how to connect and keep contact with isolated areas can enable ~~these remoted~~ people who live in ~~the~~ remoted areas to trade with other countries, receive help from others and develop their own country.

In conclusion, this problem can be caused by different things, ^{but} we should find a ^{universal} ~~unique~~ solution. ~~for every time~~. ~~I think believe me~~

20	I think that "Adele" can be a good title for the story. The whole plot of the story ^{was} evolving around this woman. For example, the villa was long belonging to her, Rebecca, the main ^{is} character, was her nurse. Moreover, almost a half of the text describes to Adele's is story, character, and conditions and relationships.
