ВАРИАНТ № 1

Unfortunately, our world is far from perfect. Every day, countries face a lot of different challenges. One of the most acute is the lack of food for people in many parts of the world. However, it doesn't mean that ~~companies produce a short~~ we have a shortage of food production, but rather the fact that food doesn't reach everyone who needs it. There are many reasons of this problem, but in my opinion, the most important one is poverty.

Truthfully, the main problem particularly acute on the African continent, where a large number of poor countries are located. People there don't earn enough money to provide themselves and their families. This means they remain hungry and can't work to make more money. It is never-ending cycle of poverty and starvation.

I suppose that the best solution to this challenge is to create an international organisation to provide assistance to underdeveloped countries. Rich and powerful countries can unite to deliver products to those who need it most. This is not only help solving the problem, but also make better ties between nations.

To conclude, I ~~de~~ believe that this serious problem like world hunger will be overcome. We need work together and make our world better for further generation.
