5	I believe the biggest benefit of computer-based learning is its adaptiveness. Firstly, educational AI models can change to fit any learner's needs. With certain tools like brain monitoring devices they are able to help anyone grow expertise in various areas. Secondly, they might help offer quality education to many people who can't afford it.

ТЕСТ. БЛОК 2.

9 класс

Вариант № 1

16	1. F: "Unfortunately, many are disheartened by the lack of substantial measures from global leaders, despite numerous climate summits." 2. T: "Terms like 'climate anxiety' can validate these feelings, but they risk framing individual distress as the problem..." 3. F: "The PTMF offers a different approach, asking 'what has happened to you?' instead of 'What is wrong with you?'" 4. T: "Social power dynamics also influence whether individuals feel heard..." 5. T: "Addressing climate distress requires systemic changes from governments and powerful entities..."
17	1. Some visible effects of climate change are frequent disasters like hurricanes, floods or heatwaves. 2. Young people often suffer anxiety and fear for the future. 3. The study revealed common emotions like guilt and despair and that social power dynamics influence individuals' anxiety. 4. PTMF is useful for those worried about climate change because it helps undermine and understand the nature of climate anxiety. 5. Community helps create spaces to process emotions with like-minded people.
18	1. to minimize damages to the ecosystem. 2. how much weight your opinion holds in discussions. 3. anxiety induced by an event concerning a large group of people. 4. making efforts to preserve the environment. 5. to do stress-relief activities and take it easy.
19	1. threatening 2. disappointed 3. to portray 4. exile, exclusion 5. to allow, to give an opportunity
20	Climate change has recently caused many disasters. It demands action, and people fear for their future. Their feelings are valid and collective. The power threat meaning framework studies stress induced by climate anxiety. It highlights the need for pro-environmental lifestyle changes, practicing self-care and coming together to make a positive effort.
