ТЕСТ. БЛОК 2.

9 класс

Вариант № 1

16	1. False. "...by the lack of measures from global leaders" 2. True. "Terms like "climate anxiety" can..., but they risk framing individual distress as the problem" 3. False. "...asking "What has happened to you?" 4. True. "Social power dynamics also influence whether ind. feel heard and included..." 5. False. "...requires systemic changes..."
17	1. Natural disasters (floods, earthquakes, heatwaves) 2. They suffer emotions such as anxiety, despair, anger. Also, their sleep is affected. 3. Common ^{negative} emotions, which are reactions to societal dismissal which are reactions to societal dismissal 4. It helps identify how distress responses can serve different purposes.
18	1. to prevent/stop further depression/sadness 2. how people react to other people 3. a ^{negative} shared feeling that is shared by many people. 4. changes to a ^{suffering from climate anxiety} person's lifestyle. 5. to learn how to care about yourself
19	1. close 2. disappointed 3. to attribute 4. disclusion 5. give hope
20	Climate change is causing many disasters such as floods, heatwaves, and hurricanes. Many teenagers feel so called "climate anxiety". It involves feelings such as guilt, despair and anger, paired with a lack of sleep. Many teenagers feel feel so called "climate anxiety". It involves feelings such as guilt, despair and anger, paired with a lack of sleep.

The power threat meaning network (PTMF) had interviews with such people. They ~~interviewed~~ revealed that part of these feelings were caused by public dismissal. For people suffering from climate change, the best is to find
