Вариант № 1

16	1. False, (3) many are dishearted by the <u>lack</u> of substantial measures from global leaders... 2. True, (7) 3. False (8) PTMF offers a different approach..., asking "what has happened to you?" 4. True, (11) social power dynamics influence 5. False, (18) addressing climate distress requires systemic changes from governments
17	1. Some people feel overwhelmed with worries about the future and it affects their daily life and sleep. Some feel unheard and some suffer daily disruptions due to climate concerns, some fear for the future. 2. 3. The study revealed common emotions such as guilt, alienation, despair, anger. 4. PTMF is useful because it helps identify how distress responses can serve different purposes. 5. Community can help by creating spaces to process emotions and people can connect with like-minded people.
18	1. to do something to make people stop dying in natural ^{natural} disasters 2. Other people 3. a bad feeling we are all feeling (experiencing) 4. Change your habits, to make your life more environmentally friendly 5. Do something that brings joy to you, makes you feel good.
19	1. Being / AOF stopping 2. Not sad, disappointed 3. think 4. Overcome 5. Encourage
20	In the text it is talked about how climate change and can affect people. They feel overwhelmed, angry, guilty. Also it is said how to deal with all these feelings: you have to engage in personally meaningful actions, such as practicing self-care or you can connect with like-minded people. Also in the text it is said that government should do something.

I think the biggest benefit of computer-based learning compared to traditional education is that we can learn whenever we want to and wherever we want to. Traditional education means there has to be a teacher and we have to be in a classroom. But now with computer-based learning we are not tied to a classroom, we can study anywhere in the world!
