ВАРИАНТ № 2

Nowadays there is a huge food wastage problem in our society. People buy more food ~~than~~ than they can eat and this leads to the thing that some food ~~is~~ gets disposed off.

In my opinion, the main reason ^{why} ~~that~~ people waste food is that they can't stop themselves from buying more than they can eat when they see the wide variety of it in the supermarket or restaurant. This is because there might be lots of food they like and they start to think that they also need it as well, but it is not so. To my view one of the best ways to solve this problem should be the big well-organised government campaign against buying more food than needed. This campaign should raise awareness over people about how buying more food can affect the environment and what will happen if people ~~must~~ only buy what they need. It is needed to ~~be shown~~ the good sides of buying things wisely.

In conclusion, I believe that the food wastage problem ~~is~~ should be solved as soon as possible. Many people die from hunger while others can buy what they want to through it away ~~mean~~ to the rubbish bin. This is unfair and this problem must be discussed widely around the world to come to the solution to stop

20	I would suggest the title „The real love“, because it is regardless how much long were Mrs. Baxter and her daughter waiting for Mr. Baxter to come and only due to real love they have never lost the hope that he will come. What is shown in the text is the example of such a love.
