ТВОРЧЕСКОЕ ЗАДАНИЕ (лист 1)

ВАРИАНТ № 1

It is very big problem, that in many parts of the world, there is not enough food for everyone. I think that many times ago government took a territory and resurses for their people. They took food in other territories. There were a lot of wars. In my opinion, it is injustice for poor people. They have been suffered for many years.

I can suggest some ideas. At first, we should share food with poor people. We should give them not only food. We have to give clothes, apartment and, of course, food. We should share our knowledge and experience with them. We should share our culture and traditions with them. Also we should developed economy in these parts of the world. We can create organizations for help these parts of the world. We can donate money for new different projects. Government can open way to these territories for connecting with them. With this help, we can send things for healthy and happy life. These territories will stop become poor with our help.

Finally, I want to say that we should help all people. We can talk and friend with these people. People will stop be hungry and they will be healthy.
