16	N1 F (3) ... many are disheartened by the lack of substantial measures from global leaders. N2 T (7) ... they risk framing individual distress as the problem... N3 F (8) ... asking "What has happened to you?"... N4 T (10) ... and societal dismissal (11) Social power dynamics also influence N5 T (18) ... requires systemic changes from governments...
17	N1 The visible effects of climate change are severe floods, hurricanes and heatwaves. N2 Young people feel overwhelmed and N3 The study revealed that individuals often feel guilt, alienation, despair and anger as reactions to the situation. N4 PTMF helps in recognizing distress responses and N5 Community could help by creating a space for connecting with like-minded people and processing emotions.
18	N1 to stop people ^{human} and animal deaths. N2 a person's status N3 a mental problem society faces N4 a change of lifestyle to support the environment N5 not for validating your own emotions
19	N1 hovering N2 depressed N3 to blame N4 feeling not included N5 make determined
20	Climate change is resulting in loss of life. The government and global leaders aren't acting, therefore many people are overwhelmed and disheartened. Recent research showed that while there are different distress responses, climate change is a collective trauma. To alleviate alleviate stress making pro-environmental changes in your the person's lifestyle is recommended.

5	There are lots of benefits of computer based learning. The biggest benefit of computer-based learning is personalization. Usually teachers explain the same mat study material to the whole class. And while, unlike with live online lectures, a student could ask for an explanation, the teacher was could never understand this the student's mind as good as AI does. AI can see what each individual student needs and provide statistics for optimized learning.
