ВАРИАНТ № 3

Problem or Solution

Nowadays people use artificial intelligence technologies practically everywhere. It has already become ubiquitous. There are numerous reasons to development of AI.

It is worth mentioning that the most obvious reason — technological progress. Although many new inventions require human touch, some assignments can be delegated to AI.

In fact, delegating tasks to AI leads to people losing their jobs. ^{an} Lack of vacancies is unavoidable problem.

However, there is a ~~compromise~~ solution. Many people change their qualification and work with AI.

Artificial intelligence is also a tool for schools and universities.

For example, teachers can create ~~numbers~~ plenty of tasks with chatbots and programmes. AI developers now work with professors to develop an AI-detecting appliance.

The other reason is the time efficiency of AI. Everyday tasks like editing the text or making notes take a significant fraction of a time so people opt for AI.

As it was already mentioned, AI has downsides to it along with the benefits. To relieve people's concerns some actions might be taken. An efficient way to fight improper use (deepfakes, forgeries, cheating etc) is to law regulate and restrict it. Moreover, in order to help the current situation new vacancies to encourage people to change their obsolete qualifications and seek new employment can be made.

ВАРИАНТ № 3

To conclude, ~~it~~ is pretty natural that AI grew big. It is the universal tool that helps scientists, students and virtually everyone. The best thing we, as the humanity, can do is to accept this phenomenon and take advantage of it.

10-11 классы

Вариант № _____

16	1) My building's in terrible condition. 2) It's a bit of a wreck... 3) It's a shame to let a lovely house like that just die... 4) ...it has good bones... 5) A mere fraction of what it was worth.
17	1) "Good day," the old woman said, a luminative expression on her face. 2) No one else in New York would have a tearoom with tea roses, so it would be unique. 3) As she talked on, Fiona noticed Miss Nicholson was listening intently. 4) "I can't. He married someone else," she said quickly, mortified at admitting this to a stranger. 5) Fiona's story about her lost love resembled the owner about her experience and she changed her mind.
18	1) a friendly, naive old person. 2) make her tearoom a popular place. 3) being ^{to be} sentimental, compassionate. 4) being ^{managing} managing to persuade 5) made fun of her cruelly
19	1) fiancée 2) sharp 3) destroy 4) gloomy 5) part
20	Not Just A House Not Just A Building I would choose this title because it suits the meaning of the story. The plot is connected to that place but it is not just space, it is the collection of memories to Miss Nicholson and will be the same for Fiona who is a next owner of the property.
