Nowadays there are a lot of social problems in the world, and many people have to deal with them every day. ~~One of the most dangerous Food~~ ^{issues} ~~scarcity~~ can be considered as one of the most dangerous ~~problems~~ of our times, because it exists in many parts of the world. Personally, I would like to comment on the reasons and solutions of this problem.

In my opinion, the issue of food scarcity exists because the economy of some countries is not well-developed, so that they have to export ~~goods~~ ^{food}. Instead of distributing ~~them~~ ^{it} between citizens, ~~in order to purchase an international currency for further development.~~ ^{Furthermore, people in some countries overconsume} ~~Of course, food export is not very beneficial~~ ^{overconsume goods and it leads to food waste, while others have nothing to eat.} for such countries, because the amount of goods for ordinary people is reducing. What is more, some governments ~~are not~~ ^{are not} able to provide food ~~supply~~ for the citizens because of the transport system that is not organised in a ~~reliable~~ ^{proper} way.

In my view, there are some ways to solve the problem of food scarcity. For instance, the governments should donate money to the companies that construct railways in order to create ~~a~~ a reliable transport system. What is more, other ~~countries~~ ^{states} should help their neighbours and stop the overconsumption of goods that leads to slow paces of development of poor countries.

To conclude ~~I w.~~ ^{think} In conclusion, I would like to say that the issue of food scarcity must be solved in the near future. It is ~~importa~~ important to provide all people with better life conditions.
