Вариант № 1

16	1) F. (3) "Unfortunately, many are disheartened by the lack of substantial measures from global leaders..." 2) 3) F. (2) "PTMF offers a different approach by focusing on the context... asking "what has happened to you?" instead of "What is wrong with you?" " 4)
17	1) severe floods, hurricanes and heatwaves 2) they suffer daily disruptions, fear for the future and feel overwhelmed unheard 3) it revealed common emotions such as guilt, alienation, despair and anger - valid reactions to the situation's gravity and societal dismissal 4) it helps identify how distress responses can serve spurring climate action to manage overwhelming emotions or protect loved ones 5) they can connect with each other and take care
18	1) to stop losing lives of people 2) 3) some problem which is popular among many people 4) 5) to start caring about yourself more
19	1) 2) 3) to face 4)
20	With climate change we are in for the warmest years on record. Many people are disheartened by the lack of measures from global leaders. Feeling overwhelmed in this reality is common. Climate anxiety can validate stressing feelings. Recent research found out that people are stressed about climate change. Social power dynamics also influence whether people feel heard and included in environmental discussions.
