Waste food is really big problem nowadays. A lot of people waste food and does not matter that it can be bad for themselves. When we waste food we firstly waste vegetables, fruits, meats, bread and a lot on another things. Thing wich are needed for a lot of poor people and children.

In my opinion people waste food from ~~s~~ shops and resaurants because they do not like how it cooked or just how it look~~ed~~. Honestly, it is really awful when we waste food just because we do not like it. But sometimes in shops and resaurants take unfresh food. It is really big problem too.

So, restaurants and shops need to take only fresh food, also vegetables, fruits and bread. I think if these thing to be controlled, ~~we~~ wasting food can be not a lot.
