ВАРИАНТ № 2

Nowadays a large number of people waste a lot of food which they bought before. I would like to express my personal opinion on the subject.

On the one hand, there is a big problem in modern world related with food, it's trend on healthy lifestyle. It's fashionable to buy green apple tails ~~and apples~~ ^{from bananas} and drink them filming on the phone, but

I guess it isn't for everyone. It has a strange, specific taste and someone can throw it away. And this happened with every new thing which was popular for some time.

On the other hand, there is also a problem called overeating. People eat more than they can, because of the large variety of food. They use a delivery service, order a lot of dishes and drinks at home and eat. After eating, they just throw food away and don't think about ecology and other people.

I believe that the best solution to decide this problem is to ask help from government to create volunteer's organizations which would do significant work by ~~look after~~ ^{watching} the information about sold food. It helps to control the situation, and it will reduce amount of food we throw away. Besides, I think that food can be given to poor people who don't have enough money to buy something that can be ~~eat~~ ^{edible} to themselves. It helps to reduce a number of food that ~~throw~~ ^{people} away in many countries.

This text shows a small family - mother and daughter, who were on the station in any time of the day. daughter ^{was} waited for her father, mother ^{was} waited for her husband. It takes a year to see him. They have waited for this moment.
