There is no doubt that the topic of wasting a lot of food is widely discussed nowadays. Personally I think that happens because of less package of eco-friendly knowledge. Many people don't care about ecology, so they don't think about recycling food, plastic and etc. Every day my family waste a lot of food, but I try not to do that. Firstly, I get so ~~much~~ food, that I will eat. Secondly, I buy food only for one or two days, also I try not to eat in restaurants. The amount of food we throw away is really big, so we ~~sh~~ouldn't do couple things. As I said, we should try not to buy a lot of food. Also we ~~sh~~ouldn't eat in restaurants. ~~or in~~

There are a lot of people who need food, so the best idea is to give them it. Also, there are a lot of eco-friendly movings, where you can find a lot of friends! Some people prefer to follow this eco-friendly moving because they want to be in trend. That's wrong, we ~~sh~~ould lead a healthy life style only because our hearts want it! Just think, there ~~are~~ ^{is} a big mass of food that ~~is~~ ^{is} been throwed away, because of people's ego. We ~~sh~~ould think more about that.

The image shows a blank sheet of lined paper with horizontal ruling lines. A large, stylized, handwritten letter 'Z' or '3' is drawn across the middle of the page, starting from the left margin, curving to the right, then back to the left, and finally curving to the right again. The drawing is done in black ink.
